South Carolina State Parks

at 12:00:00 on 6/04/2014 UTC

CANNONBALL! There are so many cool things you may encounter on the Myrtle Beach State Park pier! Recently, Ranger Ann took a group out, and a fisherman caught this large cannonball jellyfish in a net. Conveniently, cannonball jellies don't sting and they are a major food source for leatherback sea turtles. How cool is that?

Mariah Charrier Julie Detrick Walker they don't sting! How bout that!

at 12:09:21 on 6/04/2014 UTC

Julie Detrick Walker Huh imagine that! Good to know :)

Terri Arms I have pictures of these that washed up on the beach at Hunting Island State Park I was wondering what they were.

at 12:12:02 on 6/04/2014 UTC

Fran Sanderson They wash up a lot, don't they?

at 12:47:45 on 6/04/2014 UTC

Spring Slagle Awesome! We will be out there in the next few weeks!

Paula Rhodes Nichols Is this what we saw at litchfield?

at 0:19:44 on 6/05/2014 UTC

Becky Abraham Did not know any jellyfish could not inject poison.

at 0:42:52 on 6/05/2014 UTC

Donna Zeller Privette Dillon Luke Champion I didn't know this did u?
