As Marlene Kravitz mentioned her son Matt died from this horrible cancer, he was my son in law. We miss and love him very much. If we can save lives from this cancer and have more research to find a cure, it would be so worth it.

The nephew of a dead friend of mine passed on from this terrible disease and my friend also has the trait.

**Marlene Kravitz**

Albuquerque, NM · Jun 05, 2016

My son, aged 37, died March 19, 2016 from this rare and very aggressive cancer. He left behind a young wife and a very large and extended family and group of friends. He was diagnosed on January 26th and 7 weeks and 5 days later he was dead. My son was Hispanic, white, and asian, not your typical ethnic group for this cancer. I add my name to this petition in hopes that research will keep this cancer from claiming another precious life.

My cousin's sweet 16 year old son is battling this terrible disease. If they had known about the risk to him, they could have had the opportunity to catch it earlier, giving him a much better chance at ridding his body of this disease.

**Joydette McFarlane**

Hi, Xavier Louk has been battling this illness for too long and we need to find a cure. My heart goes out to him and his entire family. We know God is able to heal, and He uses us to help those in need. Keeping him in our prayers! Joy Galloway & family.
