Dear Senator Kevin Bryant, As your constituent, I want to see serious changes in the structure of our state's transportation system. I am tired of seeing my hard-earned tax dollars funding a corrupt, broken system that only benefits lobbyists and politicians. These 5 reforms would make a difference.

- Make the Governor accountable for SCDOT.
- Eliminate the State Infrastructure Bank (SIB).
- Create transparency in spending and contracts.
- Fix the potholes first.
- Stop subsidizing mass transit.

I am urging you to vote "NO" on all plans that include a gas tax hike and support these reforms to bring an end to the corruption and waste in our state. Regards, Shirley Clark 116 Life Style Ln Anderson, SC 29621
