---

I can but it increase the width which will increase the price. The maximum it could go would be 10.6" wide x 1.6" high without distorting the logo. It would be an additional \$2 per bag.

It is 9" wide x 1.36" high. the logo on the Darius bag was 7.5" wide x 3" high.

M,

Just checking in regarding the FGI bags.

Any updates about the proof?

Thanks. KV
