Mr. John Van Dyes, Bond Counsel, responded it will be a 15 year pay back and will be on each resident's tax bill. The amount of the assessment is \$2,200.10 per parcel (plus interest). The final construction cost came in lower therefore lowering the final assessment. 2. There is a vacant lot owned by one of the residents, will he have to pay for this when it is only used for a garden? All vacant lots will be assessed the same amount as an improved lot, unless the lot cannot be developed. Each parcel in the development gets the same benefit whether it currently has a house on it or not. 3. What is the total and will that include running the sewage to your house? Mr. Van Dyes stated that the total amount can be paid at any time or they can elect to pay in annual installments over 15 years. If the total is paid on October 1; then there will be no interest, he said. The County will have to be reimbursed for the interest if the assessment is paid over time at the interest rate that the County is paying on the bond. The bond issue will be \$462,000. The homeowner would be responsible for running the line from his house to the sewer line (stub out is run to each property line). All tap fees have been waived. 4. Mr. McNair Greer lives by himself; how long will he have to pay this and how much. It can be paid over a 15 year period with interest or can be paid in full at any time.
