**Subject:** Question from media re: cyber threat

---

Hey Chaney!

I got your email from my friend Bridget Wyant. I'm a freelance producer with Good Morning America based in Mount Pleasant, SC. We have a crew here from New York covering the storm. Wanted to see if I could get more details on the cyber threat Gov. Haley mentioned in the last news conference. Is there anyone in Charleston who we could interview about it? If not, could I get more information about how/where the threat was discovered...and what people should watch for?

Thank you!

Kristen
