Heidi Schoepf Dannelly Play nice guys. SC Parks are doing their best to get people back into nature but away from one another. Take this debate to a different venue. Tiger Lynn- check each park's site for their procedure on reservations and what not before you come.

George M. Giblin Jr. Cute video, and I am glad the parks are reopening. But how about spending more time - instead of making videos - on fixing the on-line system for purchasing passes so seniors - the most at risk group - may purchase new passes at the reduced rate without having to make close contact with an attendant at your locations?

Allen Reynolds Tiger Lynn Hey Tiger, the limit for most parks are 100 cars, not including camping residents. The amount may vary per park size but from what I know it is 100 cars. I would recommend going during the week instead of weekends, it is usually slower so the odds for you would be better. But like most things lately, thing can change in a few days.

Robert Herring Jonathan Holland I wrote them an email to ask.

Robert,
We understand your concern regarding your passport and the recent park closure.
We will do one of the two things to give you back the month you will be missing from the current closure.

1. When you purchase a new passport, we will add the extra month on to that passport at no charge.
2. When your current passport expires, you may turn it in and we will give you another passport for the month missed at no charge.

Thank you for your understanding as we wait this thing out. Be safe and be well.
