**Subject:** Granicus Webinar: Using Grants to Fund your New Website Project

---

Hi Tony,

By their very nature, going through a website redesign project involves a wide range of stakeholders in different parts of a public or government organization.

But just getting a website overhaul project underway can be a major undertaking unto itself, and it often comes down to finding the money to fund a project in the first place.

Join Granicus Vice President of Marketing Michael Ashford and Grants Office CEO Michael Paddock as we discuss how to leverage grant funding to help pay for website development and how Granicus' CivicaCMS can reduce the time and effort spent updating your organization's website.

**Register Here**

Hope you can make it!

**Michael Ashford**
