RE: Your speech following the State of the Union address

Dear Governor Haley:

I listened to every word of President Obama's speech and every word of your rebuttal.

I think you don't remember that a lot of our problems commenced under a Republican President and have continued under a Republican Congress. I am an Independent because of President George W. Bush because as several other people have said, "the Party left me". You also need to think about Senator McCain did **NOT** become President because of his decision to select a certain lady to run with and many of us voted for President Obama because of the unwise choices the Republicans were making.

I will hasten to say that I think a Democrat sent our jobs to other countries.

I wish you had simply talked about how we can do better as it relates to President Obama's speech. I hope that whoever pulls through on the coming election has the sense to ask you to be his Vice President.

Kindest regards,

Julia Mullin
