Governor Haley,

We received a very nice email from Fairfax Mayor Samuel Causey, and I just had a great conversation with him as well. He wanted to thank you for everything you are doing to bring jobs to SC and rural counties in particular. He also wanted to let you know about a great existing company they have in Allendale – Scotsman Ice Machines. They employ about 125 people and have been there for over 30 years, making the machines you see in restaurants and hotels across the US. He was very appreciative of all of your efforts around job creation and wanted to wish you a Happy New Year.

Rachel
