---

Chris,

I think to require more would put Jasper COA out of business. I will accept the proposal, but would like a monthly accounting of the repayment. LCOG needs to schedule regular monitoring visits to assure compliance with their contract.

Tony-  
How is this coming?  
Chris

Tony-

I received the attached proposal this morning to repay the \$74,375 of Title III transportation funds, which would provide for repayment in approximately four and a half years. I believe it is a sincere commitment by the CoA board and done with some assistance from Jasper County Council. I do have concern about the initial payment's effect on the CoA's financial strength. With your approval I'm prepared to accept the proposal as submitted, however I'd like you to consider an initial payment as low as \$10,000, which, at most, would add less than a year to the repayment schedule. In any case, we've started the \$1,000 monthly repayment with the CoA's November invoice.

Let me hear from you soon.

Thanks,  
Chris Bickley
