Subject: Re: Take Action! Save America's Most Important Whistleblower Law

What I don't think all the Whistle blower lawyers and IRS agents on this email do not understand is my motivation to see this all cleaned up . Bottom line I could care less about anyone's opinion . I only care about facts and law . I have proof of 100% violations to IRS 501-c6 non profit laws as written and IRS is not enforcing . I have never seen such incompetence in my life . How can we survive as a nation and society when we allow billions in tax violations that also create abuse and unfair trade , business and competitive practices to free enterprise who pay taxes , by IRS failure to enforce . This will become one of the biggest stories in America once the press fully realizes the billions involved and what's happening in just about every city in America.

Stopchamberabuse.com website , press ,lawsuits and more whistle blowers coming forward will eventually force IRS to act .

Many I know will also be educated on the fact if IRS does not act or enforce the law , this leaves the door open to others to start their own non profits and legally escape taxes on America !
I can see the headlines now how to start your own non profit and legally escape taxes from your profits . Profits just paid out in salaries and expenses !!!!

Does anyone on this email think the non profit USChamber president Tom Donahue should be paid and approved by his incompetent buddy board 4.7 Million per year salary plus a jet , limo and what ever else he can pocket from luxury travel and plane tickets not revealed on a IRS form 990? For me IRS is not just incompetent it's form 990 does not show enough and allows non profits to secretly abuse even more by not showing all important financial info like travel and perks . Look at all the chambers and Cvbs in America form 990 you tell me ! what you will find is massive abuse , violations and corruption . No one could fabricate this kind of stuff . Thanks

I have filed a whistle blower claim against the US chamber and it's president Tom Donahue salaried at 4.7 m per year jet and limo and pays no taxes . No wonder he is fighting this law no surprise . I have in fact filed cases against 100 chambers and Cvbs in the biggest cities in America for 100% proven violations to non profit 501-c6 tax codes . My cases will become one of the largest Ehistke blower cases in USA history with billions of unpaid taxes in America and growing with the Internet . Call me for more info !!! Thx
I deal in facts and laws not opinions !

Lev Glikman our assigned agent refuses to enforce or respond . This will result in more lawsuits in SC .

National press releases coming soon ! Thanks

On 25/07/2014, at 12:39 p.m., National Whistleblower Center <mjw@whistleblowers.org> wrote:

Ask Congress to Save America's Most Important Whistleblower Law

Demand that the House Judiciary Committee cancel the hearing on False Claims Act “reform” scheduled for July 30, 2014. If the Committee is determined to hold the hearing, then a member of the National Whistleblower Center should be invited to testify as a witness.

Urgent Action Needed!!

The U.S. Chamber of Commerce (“Chamber”) has declared a war against whistleblowers! It has released a report, “Fixing the False Claims Act: the Case For Compliance-Focused Reforms,” setting forth proposals to strip millions of Americans from coverage under the Act, limit damages, increase the burden of proof on demonstrating fraud and establishing barriers to block employees from contacting the Justice Department. Taken together, the Chamber’s “reforms” would completely undermine the False Claims Act.

With its report in hand, the Chamber has commenced an extensive lobbying effort to amend the FCA. Its first step has apparently succeeded. The Chamber pressured the House Judiciary Committee to hold a hearing to present the Chamber’s proposals.

We need your help to stop the Chamber’s campaign! We need your voice

to tell Congress not to destroy America's most effective whistleblower and anti-fraud law!

The FCA has recovered billions of dollars from some of the largest corporations that have ripped off the taxpayers. Thousands of employees have used its pro-whistleblower procedures, many with success. Congress must hear our voices!

Linked below is a copy of the NWC's report fully rebutting the Chamber's dangerous attacks on the FCA. The report explains what is at stake, and how devious the Chamber's proposals are. Please Take Action and pass the report onto your members of Congress – ask them to read it!

A copy of the NWC's report is linked here: http://bit.ly/NWC_FCA_Report

Take Action!

Tell Congress to reject the Chamber's scare tactics, and instead expand the availability of *qui tam* remedies in order for America's most effective law for uncovering fraud to be fully used to protect the American taxpayers."
