Subject: press inquiry re House GOP fuel tax legislation

Hi Chaney and Bonnie...not sure which of you is best for this question at this time: am looking at a potential story on a bill introduced in the SC House yesterday (H.3516) that would phase in a 10-cent gas tax increase over the next five years for our Weekly State Tax Report.

I was wondering if the administration had any position on that bill (or a gas tax increase in general) at this time.

Thanks for your efforts!

[illegible]
