Subject: BYOD for Agenda and Meeting Automation

Tony,

NovusAGENDA allows board members to save time and money by using their own devices to review and prepare for their meetings. With BYOD (Bring Your Own Device), board members, staff, and the public, can log in at their office, home, on the road, on any device to access valuable meeting information. Along with this flexibility comes cost savings. NovusAGENDA supports tablets ranging in price as low as \$70 to over \$700. All mobile devices are supported by NovusAGENDA without installing apps or software.

Before you dip your toe in the water and invest a penny on agenda automation, we are offering our no-cost-no-obligation pilot of NovusAGENDA. [More Information on the NovusAGENDA Pilot Program](#). Also, see [our pricing](#).

Will you be available next Tuesday at 2:00 pm EST to discuss over the phone? If not, sign up for one of our [webinars](#), [take a self-guided demonstration](#) or let us know a better date and time to discuss.

Also, we invite you to come visit us at the **National League of Cities Congress of Cities and Exposition conference in Austin, TX, November 19 – 21 at Booth 802** to learn more about NovusAGENDA and Swagit Productions, LLC for your agenda management and video streaming services. You can also sign up at the booth for the no-cost-no-obligation pilot program or learn about it at the conference.
