Subject: Money for planned parenthood and other failed sex-ed programs ~ Website email from Madeline Nesmith

Lt. Governor Bryant, I feel it is time for those of faith to stand up for those being persecuted for following their convictions. Prayers have been answered when President Trump removed funding from failed sex-ed programs and money for foreign abortions. It is time now for elected officials to follow his lead. DO NOT go back and fund these programs. We are a blessed nation and people of faith and God are watching not what you say but what you do. May God bless you and continue to bless America.
