Subject: S. 995 is not only contrary to transparency and the USA system of checks and balances it is fundamentally dangerous to liberty

Having stonewalled Congress and the American people on many issues it's time to stand and fight against another overreach of government. For America and our heritage, I urge you to throw your support behind those who are against the Trans-Pacific Partnership trade deal the Obama administration is hoping to pass on the "fast track" to avoid congressional and public scrutiny.

S. 995 is not only contrary to transparency and the USA system of checks and balances it is fundamentally dangerous to liberty. More than with ObamaCare, this is a case crammed down our throats of "You have to pass it to find out what's in it." Please alert colleagues and those in your sphere of influence to stand against the emperor enterprises.

Very respectfully,

Larry Bateman
