Virginia Rackley Scates My favorite Christmas tradition is having the entire family gathered at Dad and Mom's on Christmas Day for circle time. We sing carols while calling extended family members, since we can't walk the miles that separate us to carol on their doorstep. Then we go around the circle of family members, and all 15 of us take a turn sharing what we are most thankful for and a fond memory of the year. The last 3 years we have been most thankful for a complete stranger, who allowed my Mom to receive their loved ones liver during her liver transplant on Dec. 1st. That Christmas gift has allowed our family to continue our tradition of sharing circle time at Christmas and keeping our circle complete. We are also thankful for state parks, especially Oconee State park where my parents fostered our love of spending time with family, camping, and enjoying the great outdoors during different holidays and vacations. . Merry Christmas to the SC State Park family! Thank you for helping to build family memories that are passed from generation to generation. We have already booked our sites for Halloween 2015 and Mom and Dad have reserved a cabin. We look forward to continuing to build more memories as we celebrate my youngest daughters birthday (Halloween Day) at the State park with camping friends, old and new. I guess we could write about several holidays and our favorite traditions we share with/at SC State parks.

My brother read "Andy and Willies Prayer". We got to open one present, usually a new pair of pajamas. It was family time and special time. I carried on the tradition with my children until they believed they were too old to. I miss those days many times as the children are grown and every one is so far away it seems. Once we found an old empty bird nest in our tree when we brought it in and the tree branches unfolded.

Cheryl Henderson I have 2 favorite Christmas traditions from my childhood. As a family we would make candies and other bake goods to give as gifts so every night from the first of December until the week of Christmas, the house would be filled with the wonderful smells of Christmas goodies and the kitchen full of laughter. Dad was a huge Christmas prankster/kid. The other was decorating the house. Every room had oil lamps that I got to light every night

as darkness fell. The house was always so festive because there were Christmas decorations all through the house, even down to the Christmas shower curtains, napkins, paper towels, and yes even TP.

Terry Cook Our Christmas tradition has been in our family since my grandmother was a little girl. It revolves around breakfast on Christmas morning. The star of breakfast is oyster stew. I remember so well the first time my daddy put an oyster in my mouth when I was a very small child. My dad carried this tradition to new heights in his lifetime and was oyster stew and a huge breakfast for family and friends pretty much all of Christmas day. We lost both my Grandmother(96) and my daddy(74) this year. This tradition IS my Christmas and is something I look forward to all year.
