Subject: NCI-AD Pilot Report

Attachments: NCI-AD Final Pilot Results.pdf

All recipients are Bcc'd

Good afternoon,

NASUAD and HSRI are excited to share the final report from the 2014 pilot of the National Core Indicators-Aging and Disabilities (NCI-AD) Consumer Survey in Georgia, Minnesota, and Ohio. The results are sorted by state and funding source within the state. Since the goal of the pilot was not to compare these states, but instead to test and refine the NCI-AD Consumer Survey, the three states are not identified in the report; they are simply referred to as State 1, State 2 and State 3.

Below, you will find an invite to an all-state webinar discussing the pilot report, details about our next steps with NCI-AD, and more information about how to join the project.

All-State Webinar

Please join NASUAD and HSRI for an all-state webinar to discuss highlights from the pilot report.

When: **February 10, 2015 from 3-4 p.m. EST**

Webinar access: <https://join.me/nasuadwebinar>

Dial in: **888-346-3659** Access code: **33688**

Next Steps

In December 2014, the NCI-AD project team reviewed the data and feedback they received from the interviewers in the pilot states and used this information to revise the NCI-AD Consumer Survey. Currently, the project team is conducting a small sample in-home testing of the Survey working with the Georgia Division of Aging Services and the Delmarva Foundation. The Survey is expected to be finalized in March 2015. Data collection for the first year NCI-AD will begin June 1, 2015.

Join Us!

NASUAD is accepting up to 18 states for Year 1 of the NCI-AD project (June 1, 2015 – May 31, 2016) and is requesting confirmation of each state's intent to participate no later than March 1, 2015. Fourteen states have already committed to Year 1 and are currently planning for implementation. States still interested in joining NCI-AD this year should contact Kelsey Walter (kwalter@nasuad.org) as soon as possible.

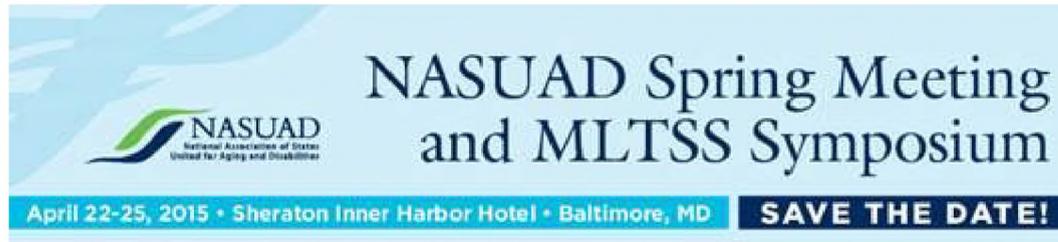

Thank you,

Kelsey Walter
