Affiliation: Constituent

Message:

Again I request that you do NOT allow oil drilling off our shores you see what happened recently in California AGAIN! Please change your stance on this also the Supreme Court said no to Captain Spit in Kiawah this is a beautiful ocean wildlife area It will be terrible!!!! Please change your heart on these too issues. You have been a great governor for South Carolina but these two things will not bode well with your constituents, me and my husband being two. God Bless and I pray God will change your heart on these two movements
