One with Abbeville, & McCormick Counties concerning the Honea Path Park, Plastic Omnium and the Clarendon County. Mr. Martin explained the following five technical amendments that the ordinance would accomplish: 1. will allow the respective county Treasurers to disburse fees collected only at the end of each calendar quarter, rather than as received, 2. will have the fee-in-lieu-of payments collected by the treasurer of each county in which the park property is located, for purposes of simplicity and as a convenience to the taxpayers of each county, 3. will allow each county to establish satellite parks at its own discretion in the case of the Abbeville-Anderson-McCormick Multi-County Park, 4. will revise the percentages of distribution in the case of the Abbeville-Anderson-McCormick Multi County Park so that the percentage of distribution is always 94% for the host county and 3% for each of the other two counties, 5. will establish the internal distribution, within Anderson County, of the next fee-in-lieu-of-tax payments to Anderson County taxing entities, after distributions to Abbeville and McCormick Counties and after Special Source Revenue Bond debt service, in the case of the Plastic Omnium satellite park. Mr. Smoak talked about an update to the County's Compensation Plan which was last done in 1990. He said about every five years the plans needs to be updated to keep the County in compliance so that the County can adequately recruit from the local area. The funds needed for the study is \$6,950, already budgeted. The plan would have to be brought back to Council and would probably not be implemented until July 1. Mr. Floyd said he was pleased that the County was going in the right direction with this. Mr. Garrison and Mr. Banister said that they were concerned about the people in the lower echelon. Council discussed. Mr. Floyd moved that the study be done. Motion died from lack of a second.

Mr. Smoak explained a letter from Molly B. Cheshire concerning the solid waste fee. These people are landlords; owners of non-residential property. County ordinance states that everyone who is required to buy a business license would have to pay the \$25.00 solid waste fee. Belton is the only town in the county who requires owners of non-residential property to buy a license. The merchants who rent the buildings use the trash containers and pay the solid waste fee. Mrs. Cheshire has stated that she feels that this is actual double taxation. Mr. Smoak explained the differentials all over the county and an estimated short-fall if the Council permitted these landlords not to pay. (from \$1,025 - \$1,900)

Council discussed the possibility of limiting the waiver to landlords who rent their buildings to businesses; not residential. Mr. Garrison instructed the County Attorney to draw up an ordinance to that effect for the next meeting. Mr. Martin explained that one way to do it would be to state that not more than one fee be paid for any business establishment. Council agreed.

Council recessed for 5 minutes at 8:30 p.m. Chairman Garrison called the meeting back to order.

Mr. Garrison moved to approve the acceptance of bids for 4 bituminous tennis courts from Lesley Courts & Paving for \$44,600. The project is fully funded with a \$35,000 - PARD Grant, and up to \$10,000 - School participation. No county funds are involved. Mr. Floyd seconded and vote was unanimous.

Mr. Smoak talked about right-of-way agreements for the Highway 24 - sewer project. The sewer line for this phase of the project was designed to cross property belonging to the Keasler's. They have said they would not sign a right-of-way agreement unless the County paid them \$1,500. The line was rerouted across property belonging to Mr. Creamer and Mr. Dunn. Both parties had initially indicated that they would agree to the route. Now Mr. Dunn and Mr. Creamer will not sign the R/W unless the County pays them \$600 each. If the county pays the \$1,200; the project will still be \$3,201 below the original construction contract amount. Mr. Floyd moved to pay the two parties the \$600 requested and Mr. Tolly seconded. Council discussed. Mr. Banister said the County hadn't had to buy right-of-ways. Mr. Garrison said that this should be considered as an exception to the rule. Mr. Tolly said that if the County pays for the R/W that the parties should be charged for the tap. Mr. Garrison also said that each individual situation should be considered on its own merits. Vote was unanimous.
