

MEDIA ADVISORY – July 16, 2018

We need your help.

As of today, 50 people have lost their lives to fire in South Carolina. If this trend continues, the state will exceed the number of fire deaths last year – 102.

As a voice in Edgefield County, you can help us prevent fire deaths in your community and the state by supporting fire and life safety programs.

Please join us at 7 p.m. on August 23, 2018, at the Edgefield County Fire Safe SC Meeting at Sweetwater Community Center, as we come together with the fire service, community partners and the people of Edgefield County to discuss the need for collective efforts for fire and life safety programming.

We ask that you share this event with your community to let them know this meeting is taking place. Learn more via www.firesafe.sc.gov and join us @FireSafeSC on Facebook and Twitter.
