Subject: Questions about flag emails

1. Did the gov's office refer any emails to SLED for investigation for any reason? (I'm thinking some might have been threatening.) If they were referred, for what reasons?
2. Did the gov's office withhold any emails? If so why?
3. How many emails did the governor receive?
4. Do we know how many were in state, out of state? Do you have any other interesting numbers or details about them?
5. What time frame are they for?

Best,

Jamie
