Subject: RE: Offshore Energy

Thanks Christian, I appreciate the introduction.

Rob,

As you may know, Newt Gingrich is returning to SC and will hold an Energy Summit in our district. I know the Governor supports offshore energy exploration and last fall worked with Sen. Graham promoting the issue in SC.

Do you have any SC specific reports, numbers, or charts? Given that the last seismic report was in '09, everything is somewhat dated. My boss is primarily going to focus on the economic impact and job opportunities associated with offshore energy development.

Any assistance you can provide is most appreciated. Thanks in advance for your help.

Caroline

Subject: Offshore Energy

Rob,

Caroline Vanvick is Congressman Rice's press secretary...they have an upcoming event on offshore drilling / energy policy and were looking for whatever material we might have from last year's event w/ Sen. Graham et al. on this subject. Ideally, they're hoping for charts, graphs, etc. Since you attended, I'm handing off to you. Her number is (202) 225-9895 and I've copied her on this as well. Thanks.
