Thanks - I'd been looking at this and a couple of related options, so I asked DOT to forward me their version of the fuel tax diversion list. It'll be interesting to see how theirs and BEA's line up.

Sorry to be slow in forwarding this along.

I haven't looked into this issue in a long time but think there is some good stuff that could be done with the water rec and another similar fund of the gas tax....I'm assume that's what he means by the county portion but we'll need to verify.

Hi Chad,
In follow-up to our conversation about the history of the gasoline tax, attached are some pages from previous budgets.
FY 96-97 was the last year the "county" portion of the gasoline tax was in the General Fund (and part of the BEA estimate). In FY 97-98, in Part II Section 50 and 51, the distribution of the gas tax to the counties was amended and taken out of the General Fund.
Let me know if you have any questions.
Thanks
Frank
