

**Don't Be
Shellfish!**

Oyster reefs provide clean water, fish habitat and erosion control and are a delicious, sustainable resource. The S.C. Dept. of Natural Resources needs your shells to rebuild oyster reefs and keep our coast healthy.

RECYCLE YOUR OYSTER SHELLS!

Find over 30 drop off locations and 30 participating restaurants across the state by visiting saltwaterfishing.sc.gov or calling 843-953-9397.

Recycle Your Oyster Shells!

Oyster Benefits:

- Improve water quality -
One adult oyster filters up to 50 gallons per day.
- Create Habitat -
Oyster reefs are home to over 120 species.
- Erosion Control -
Oyster reefs absorb wave energy and protect from erosion.
- Sustainable Resource -
With your help DNR manages oyster grounds
