Subject: Protection for our children ~ Website email from Lorraine Bennett

---

Lt. Governor Bryant, Dear Public Servants, As a woman who defends the life of our pre-born and born children, I beg our Legislators to stop any funding for abortions and especially those that dismember these precious children. The horrible pain and torture they must suffer. It must end. We must hold life as the sacred gift it is. Please hear our pleas. God Bless the work you are called to do and the responsibility you carry. Lorraine Bennett Lorraine Bennett
