Good Morning Mrs. Haley Can You Please help us out with this Road In Clarendon County Before there is a Life and Death issue or Something due to an Ambulance not being able to get through and Have to go 7 plus Miles around using Murray Road. The Road at Drs Branch and Henry road has been open for Many years and due to the Flooding is Closed that could be fixed with 4 loads of Rock and Spread the road could be Reopen To traffic in less than One Day. I know there are 11 roads Closed in the County but it would take less than one day to fix Henry Road at Drs Branch. Can You Please Help us Out Mrs. Haley Thank you in Advance Jerry Hancock cell# 843-830-3342 or E-Mail Me

Hi
Mr. Stewart I hope all is well We are in dire need to get this Road repaired until something better like a Bridge can be built it could take months even longer too come up with the Funds to build a bridge across Dr,s Branch at Henry Road. Even with FEMA helping to pay. Can You Please help us out with this Matter and lets get 3-4 loads of Rock and spread it out across the Branch and this would enable all the People that live on pompeytown and Henry Roads to get back to Normal most are on Fixed Incomes.. we all have to travel 7 plus miles around now with this Road shut down. And it would only take 1-2 days to get this road Back open with very Little Money... Thank You Mr. Stewart and I hope to hear from you on this Matter soon Thank You Jerry hancock cell# 843-830-3342 or By E-Mail.
