**Hi, my name is Bill Johnes. We stayed at Baker Creek park this weekend at site #86. Please review the attached pic. This is unacceptable to see in our state parks. There were cans left on the site and the grill grate had gum stuck in it which I had to clean before cooking. It's bad enough that the pigs that left the site in this condition have no respect and consideration for nature or for their fellow campers but the camp hosts should have had this taken care of before the next guests arrived. What kind of message does this send to our tourists who come to visit our state parks. I have one more date booked in July at Baker Creek but I assure you it will be the last. And you can bet I'll be coming back to site #86 with my camera and recording the condition of the site. This is a first for me to actually write a formal complaint (about anything) but again this is just unacceptable. I look forward to hearing your response. Thank you.**
