South Carolina State Parks

at 13:00:01 on 1/30/2019 UTC

BIRDERS! Recently, a Lark Sparrow has been spotted at Myrtle Beach State Park! This is an official park record bird and an uncommon migrant along the coast and an uncommon to rare winter visitor. It has been spotted on a very regular basis between the bathhouse closest to the pier and Shelter 2, feeding on the ground and sitting in the bushes. Come out & see if you can catch a glimpse! Thanks for the awesome photo taken by Scott Hartley.

Lois Stacey Saw it Saturday.

at 13:15:41 on 1/30/2019 UTC

Kristalyn Poole What kind of bird is this?

at 13:26:44 on 1/30/2019 UTC

Stephanie Ott Red bellied woodpecker

at 13:35:14 on 1/30/2019 UTC

Kristalyn Poole Stephanie Ott it has a yellow tail and is brown with white spots. I thought it was a red bellied too, but the yellow tail throws me off

at 13:37:28 on 1/30/2019 UTC

Stephanie Ott Kristalyn Poole I see that now... a Northern Flicker, maybe? Not sure where you are or where they originate but looks close?

at 13:39:39 on 1/30/2019 UTC

Kristalyn Poole Stephanie Ott Pelion, SC Lexington county there are hundreds
at 13:43:18 on 1/30/2019 UTC

Ann Malys Wilson It's a northern flicker.

Stephanie Ott Kristalyn to me it looks like you have a female yellow shafted Northern Flicker
pictured above.

Chris Merritt I gave these in my back yard here in Myrtle Beach. They feed from my feeders
at 16:37:11 on 1/30/2019 UTC

Chris Merritt Kristalyn Poole it's a wood pecker
at 16:37:44 on 1/30/2019 UTC

Kathy Helton Patti Lewis Martin, guess even the birds have decided South Carolina cold is
better than northern freeze
