Subject: Webinar: Engaging HIV+ Older Adults in CDSME

Webinar: Engaging HIV+ Older Adults in Chronic Disease Self-Management Education (CDSME)

Tuesday, July 19, 2016, 3:00 pm - 4:30 pm ET

Individuals aged 55 and older account for approximately 25% of all people with HIV in the U.S. Self-management is critically important for this population, as they are more likely to develop other chronic conditions and face unique challenges in managing complex treatment regimens. Join the AoA-funded National CDSME Resource Center for this webinar to learn about the impact of HIV among older adults, the benefits of the Positive Self-Management Program (PSMP), and examples of PSMP implementation from the field.

Presenters:

- **Dr. Stephen E. Karpiak**, ACRIA, Center on HIV and Aging
- **Dr. Kate Lorig**, Stanford Patient Education Research Center
- **Diana Laurent**, Stanford Patient Education Research Center
- **Laura Chisholm**, Oregon Health Authority
- **Christy Hudson**, Oregon Health Authority
- **Marty Fobes**, Oregon Health Authority
