To: Some I hope I can trust and to some who I know I can not trust. - you know who you are.

Please explain to me how a judge who was incapable of holding a proper hearing in March of 2013 is capable of making a ruling that took my wife's freedom from her & has devastated her & my lives for over three years now. Let me explain. Isn't the defendant supposed to get a chance to speak in his or her defense? I was not. A Chambers or "back room" discussion was held & the plaintiff was called back. I was not. The plaintiff made a perjurious statement to the Court which was not verified by the DSS or any other legal faction. I believe this violated our Constitutional Rights. The Probate Office keeps sending me a form letter to get another lawyer. This creates more \$300.00 per hour of expenses which I don't have & why. Who benefits from this and in what manner. I have asked for an investigation many times & have been ignored. The whole "legal" system has wronged my wife & I and we are still suffering & so far enduring. Will the good people please help two mid 80 year old people get justice.
