

Georgia Telephone Support for Seniors (GATSS)

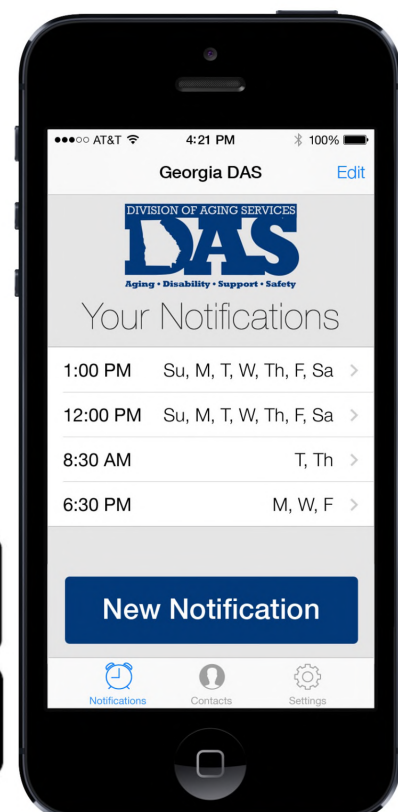

- ➡ Keep existing clients living independently
- ➡ Prevent hospitals from incorrectly discharging to a nursing home
- ➡ Provide Case Managers a way to identify problems quickly, for a broader client base
- ➡ Prevent the healthier population from needing the State's services
- ➡ Provide a low cost / zero resource service to waitlisted clients

Checking-in on older adults has never been easier

Text messages and/or emails are sent if the user DOESN'T respond

State-branded versions available

Georgia - Abuse, Neglect, and Exploitation (GANE)

EyeOn App LLC

Empowering Law Enforcement and APS with *easily accessible tools* to best **identify** and **assist** at-risk adults.

When signs are missed, the results can be **costly**, even **life threatening**, as evidenced by many tragic stories of wandering Alzheimer’s patients.

Make it easy for Law Enforcement to **prevent accidents** and **get help**.

State-branded versions available

Tools include:

- ➡ Agency Contact Information
- ➡ Cognitive, Financial, Abuse, Neglect, and Exploitation Screenings. Which **questions** to ask, when to make a **referral**, and who to **call**.
- ➡ Emergency Placement and Temporary Respite Options
- ➡ Safe Return and Mattie’s Call
- ➡ List of relevant Laws
- ➡ Direct contact to APS
- ➡ Ability for the Division of Aging Services to send Push Notifications
