Subject: Statement of economic interest

Good Evening, I was working on my statement of economic interest for my cemetery Board appointment and noticed that certain public employees also need to file them. As the chief of staff you will need to file one, just FYI. Also, from the definitions of who else needs to file, it looks like we may need to discuss who else in our office and at the office on aging will need to complete one as an employee. In the past it looks like it has only been the Lt. Gov and chief of staff but the chief financial officer, head of procurement, any division directors and some other classifications are all supposed to file.
