Looking for an update on Edisto Beach State Park.... Can you tell us how much of the park is open and recovered from Matthew? Will the Beach Campground be open again this summer?

Hi. This is the most current information on Edisto Beach State Park, taken directly from our website: Edisto Beach State Park is open. The beachfront day-use area, Live Oak Campground, cabins, education center and boat ramp have resumed regular operating hours. The oceanfront campground will remain closed while undergoing repairs and is expected to open in September 2017. Thank you for your patience and understanding during this time.

Why do you not allow lights on the beach at night?

The lights on the beach at night will confuse the turtles and cause them to get disoriented and not lay their eggs.

I was hoping Leah would say that during her program.
