South Carolina State Parks

at 12:00:01 on 10/07/2014 UTC

Keep Me Wild! Help keep SC State Parks wildlife safe and healthy! Here are some tips to follow for a more enjoyable camping trip:

- *Feeding wildlife changes the natural behaviors of wild animals.
- *Human food is unhealthy for wildlife.
- *Feeding wildlife causes them to lose their natural fear of people.
- *Fed wildlife can become a danger or nuisance to people.
- *Store all food in your vehicle or camper (never a tent).
- *Raccoons are experts at getting into coolers & tents!
- *Always throw out any garbage on a nightly basis and close the garbage lids.

Donnie Sullivan soooo human food is bad for wildlife...i guess thats why raccoons break into my outside fridge n ate all the raw bacon n eggs..took the tomatoes with them..cause they bad for them haa haa
