Dear Governor Haley:

Memorial Day was a somber day. We pondered the needs of the wounded veterans. We prayed about the project we have been planning for nearly three years. Memorial Day punctuated the urgency of turning over an important page of our quest.

We are ready and able to train assist dogs for those who cannot afford them. Please help us to provide the needy vets with PTSD a companion, a true friend. Please help us to give the amputees a helper to enable them to live more independently and happily.

Dogs are priceless, we want to work as a non-profit mission to be enablers for wounded veterans and for all who are physically challenged.

We need some direction. Who might we contact who might donate land? We would also need some things to start this worthwhile project.

Looking forward to hear from you about your fine ideas. Is there a list of grants for which we may apply?

Assist dogs cost about \$39,000 or more. We honestly want to give them to those who need them.

We know that these animals are angels. They improve the lives of everyone they touch.

Please help us to help all who would benefit.

Most Sincerely,

Debi Davis , Ph: 803-691-2148, email: djulysunshine@gmail.com

Frona McCaslin, Ph: 803-691-0789
