

Dear Gov. My love of Donald grows every day with your objection of weakness that is very plain I see all of you falling apart. You know what I like to do today is go to Sandhills dove hunting to make it worth while I have to carry my own 20 lb of wheat which is illegal plus your not allowed to go there all day then we got my 17 years old son. who is not allowed to hunt there without a hunting license. So there 3 broken rules putting young people and general into gangs. because there are so many rules and Reg. Now I'm making a outboard motor out of a law mower in this state is wrong so you stopped inspection spirit then you don't allow out motors without titles and by the time the title office has messed up. the process the summer over that's another broken law then we got drunk. Spying on people having a good time please drop all these laws now before its to late.

Is so plain

Donald Trump is the only one who  
speaks. Main he's going to warn  
the people are pissed off with  
people like you and DNR  
who want to control as its  
just like Russia it is a  
dictatorship. MR Trump will  
sought out this madness  
you are not meaning to  
encourage gang activity  
and finally this is coming  
we can go down or stuck  
hunting and beating without  
being bothered. The more you  
push of the public the  
more it will go out of  
control 10 fold you  
before. you can't just go  
out there pushing everybody  
off. Without compensation.  
I would not let anyone  
graham walk my dog  
he's been useless. why  
would anybody want the  
country so broke with  
millions of crazy people.  
Now all you want is  
no background checks blowing  
up everything don't let them in.

can see we are breaking all these over the  
the 10th Rules, ~~the~~ which could cost you  
100 dis. of dollars. and its supposed  
to be fun. So the kids go one drops  
join a gang then it could happen  
join 13th or muslim religions  
you all did this you made  
a perfect storm. Now I spend  
time with my son to make sure  
this does not happen. and he  
and I, will make a out board motor  
which is all over the internet.  
these are the solutions to the  
problems 1. Shut down DMAR they are  
to powerfull. bring up alcohol tax  
to 1.5, 3 beers. if you want to  
find out whats going on. have a  
plain clothes person boating on  
lake water on concrete. Allow private  
hand, to be private no one allowed  
on it. No hunting laws. like england  
has people will manage the deer  
game. Get rid of hunter education  
and boating courses but have them  
as a phinell for people without  
mentions. lastly. stop police shooting  
people without firearms.  
in simple terms get rid of all. laws  
and rules that arnt necessary ie outboard title  
happy christmas one and all.

9 lot more americans go to europe. 3  
because your allowed to be free you  
can go boating without a life jacket.  
You can rent one year own land  
when you want your children can  
be taught by there parents and not  
under government control. Man can  
not manage. man. Sweden is one  
of the few straight forward countries  
left. to think in the USA a common  
man let me breathe in SC. You  
cant go hunting on your own land  
with your own boat and take your  
19 year old son. to hunt whatever.  
thats not freedom thats dictatorship

A common man cant pull a old  
outboard motor out of the bushes.  
fix it with his son. keep him off  
drugs. and use it on the water.  
thats a dictatorship.

A common man cant go on lake  
waters we have a few beers. bring his  
19 year old son. let him drive his  
boat and enjoy a peaceful day.  
like we could 7-10 years ago.  
this is not freedom.

What is the end result kids go  
on drugs. we dont spend money  
on enjoyment. because as you

here's another one which has been pointed out why would you join the military when the government openly don't look after their own soldiers then when they try to enjoy themselves they got to put up with all this firing bullshit. I'm a real American but I'm going to tell as it is. No bullshit there is no point in going to church if you're going not to be straight with God. I do see that we are as self destructive as England which could become.

Completely. far from hand. were all going down that same Road if it was not for Trump.

Thank for Reading God. have us all. he are my quotes the nicer you are to people the nicer they are to you. The less Rules. and reg. you have. the better the economy is.

The better the economy the less crime there is. So what's Nicki has done is ~~to~~ create a perfect Storm for bad news it was done for control and greed and it's not working.
