Attachments: SCDMV Network Intrusion Attempts April 2012.xlsx

---

Ted – wanted to pass you information that we discussed yesterday. Attached at the “intrusion attempts” for the month of April. It was a pretty uneventful month until this past weekend, where we spiked and had about 25% of the entire months attacks in one weekend – most of which were from India. We share this information with the FBI.

Thanks  
Kevin

Sir,  
FYSA:

Attached is the intrusion attempt spreadsheet we are sending to the FBI. Per below, a good month until last weekend when we held off multiple hits.

Regards,

JR

Good morning Agent Davis,

Attached is the file we agreed to send monthly containing IP addresses that made an unauthorized attempt to connect to the DMV network. Compared to the past month, we had significantly less attempts UNTIL April 28. One quarter of the total monthly attempts occurred this past weekend which is a significant increase over a traditional weekend with the majority of the attempts originating from India.

If you have any questions or if I may be of assistance, please contact me.

Regards,

*Ray Benoist*
