Subject: Another story on the Rec Commission

Hey Chaney,

I'm writing again today on the Richland County Rec Commission. Ten legislators today demanded five of the commission board members resign. The legislators said if the board members don't resign, they will take further action to remove them.

My understanding, though, is that only Gov. Haley can remove the board members. I know we talked off the record on Monday about Haley's limits here. But I need an on-the-record response of some kind this time, as this story will more directly address the possible routes legislators could take from here.

All the best,  
-Avery
