First & foremost Congratulations on the election!! I am emailing you as a single parent trying to make sure my girls have a great education. The school my children attend some faculty & staff has been making my youngest daughter not want to attend this particular school anymore . On several occasions she has called home crying & upset & as her parent now I'm upset because she doesn't want to attend school. The first incident was for a jacket that is navy no hood & my child had been complaining about the classrooms being cold to her . The second incident about her tucking in her shirt . These petty things has made her feel uncomfortable . My daughter is an A B student . As her mother how am I to in trust my children to have a comfortable learning opportunity. It seems like this school has sent two of my nephews & my niece & oldest daughter to this school called Daniel Jenkins its an alternative school now I feel that the faculty is trying to push my youngest daughter . Can you please contact me so I can feel a peace that my girls are well educated. Respectfully Ayauna Smalls
