We would enjoy having her meet some of our employees. We will have someone take her around the sales area to meet some of our people.

Randy,

I met with the Governor's Ofc Friday. She is available to stay after the press conference for 30 minutes or so on the 26th to have coffee. One of things she does like to do is talk to employees while she is onsite at a company--I'm not sure if this is something you are interested in doing or not!? Just let me know and I will pass along to her office.

Thanks and have a Happy Thanksgiving.

PS-I will check my blackberry for messages or you can call me if need be.

We tentatively set the time at 9:45. Does this still work? We have a stage and PA system. Also John Worley may do the introduction this time since he will be there. I will confirm this.

Great! Are we still good w/ outside (albeit it will probably be colder than Oct. 1). The County said they can bring the stage and PA system if that works for you!?

Also, will Mr. Worley or Mr. Winarchick be introducing the Governor? I think it can be very "informal". We're glad to have the Governor here rolling out a statewide initiative. Workforce is a concern to business. Zeus has been using WorkKeys for a very long time, etc. I don't think we need all the specifics in the letter (I've crossed out stuff).

I'm supposed to talk to the Gov's Ofc staff today to see if she has time for coffee with you all. Is that still something you would want to try and do like before? No guarantees but I'm working on it.

Elisabeth

Hi Randy,

Do you have time to chat Wednesday to touch base about the 26th? We're still a go and want to make sure that everything is still a go for you.

Thanks. Elisabeth.
