Dear Lt. Governor's Office-SC,

We wanted to remind everyone about our upcoming webinar on the new features in Start-Stop OmniVersal. We're really excited about the power of these tools.

Join our Senior Tech, Mr. Paul Capuano, on Thursday, October 6, at 1 PM EDT as he **demonstrates the latest features** of the new **Start-Stop® OmniVersal Audio/Video/DVD Transcription System**, including new **BOOST AMPLIFY** for faint recordings, and how to effectively use the new **NOISE REMOVAL TOOL**.

"The Noise Removal feature in the New OmniVersal is the most dramatic improvement in noise reduction I've ever come across. We deal with audio and video recordings from Law Enforcement, and this new feature makes that horrible recording do-able." - Mickey Segal, President, American High-Tech Transcription
