Sneak Peek

Restoration of Rights for Adults Under Guardianship

In 2013-2014, The Commission undertook a pioneering study on adult guardianship restoration law and practice in the United States. The purpose of the study was to gain a better understanding of the state of restoration through an initial examination of statutes and case law, as well as stakeholder experiences. This summary is drawn from an upcoming article outlining the study methodology, findings, and policy and practical issues surrounding the practice of restoration.
