Dear Governor,

"You have before you this day life or death, good or evil, GOD or Lucifer, choose thou."

If you choose GOD which is the only way an E.L.E can be avoided then please email me so I can communicate with you. We have less than 34 months to completely SAVE the planet or let US all die.

My email address is; ramona1022@mail.com

The repair can happen but only with whole earth participation. You, the Governors of THE UNITED STATES OF AMERICA are chosen by GOD to implement HIS plan delivered thru me.

Should you choose to continue to follow Lucifer instead of GOD your FATHER, your choice will most directly affect every soul under your jurisdiction. And your sins will be so magnified as to be considered blasphemy and forever unforgivable to you and your line.

For you will not only be responsible for the souls of your house, but to all the souls that through your direction could have been saved and were not. And all because of you Governor, (your name here).

There will be a methane explosion within the next 34 months that will kill all life on the earth. God requires the entire earth know what is happening and work hand in hand to correct the problem. Only GOD can fix this. But if we humans don't let HIM know we need HIM by trying as hard as we can ourselves then Lucifer will win the battle. Man will Lose everything physical. Greed has done this to US. GOD and EARTH will be orphaned of mortal life. And all that will be left for mankind is judgement.

I am GOD's witness in the earth. GOD is speaking to you. This is not a drill.

Choose GOD. Email me please: ramona1022@mail.com

PLEASE WATCH YOUTUBE VIDEO: **Our time is running out-The Artic Sea ice is Going** , done by Cambridge Professor Peter Wadham.

And this video was done months ago! Things are going exponential.
