I haven't a CLUE what point you are trying to make! My point remains the same! It is Republicans who have had control of our State Legislative Branch these past few decades.....so the fact that our roads and infrastructure have deteriorated so much in that time period, is largely due to Republicans! Period!

Jeez!

Dear Patrick,

There are as many Republicans as there are Democrats who have their own political interest in how the Department of Transportation operates.

Read your article on road repair needs in our state. Well worded and you crafted a good argument for your position! However.....I have a question! In a largely Republican-controlled legislature these past few decades.....how did our roads come to his horrible condition in the first place? And please don't put it on the Democrats or some other entity! The basic fact is that y'all screwed up! Republican legislative actions should have long ago taken a proactive approach to problems in the State.

For me.....I would not have minded an extra 10-cents at the pump.....but also consider all the tourists in our State.....
