**Hi guys, My name's Dakota and I'm an editor at Hopper, a Boston-based travel startup. We just published a really cool travel article on Edisto Island that prominently features the Edisto Beach State Park as a great place to visit while in town. The article also has some cool reviews of your beach from travel bloggers. I was hoping you could help us spread the word by sharing the article on your social media channels and with your Facebook page's followers?
