SMDL #06-025

Dear State Medicaid Director:

We are writing to offer guidance to State Medicaid agencies on the implementation of section 6032 of the Deficit Reduction Act of 2005. This provision establishes section 1902(a)(68) of the Social Security Act (the Act), and relates to "Employee Education About False Claims Recovery."

The following definitions are included in the accompanying State Plan Preprint, although additional guidance in this letter further clarifies the Preprint:

An "entity" includes a governmental agency, organization, unit, corporation, partnership, or other business arrangement (including any Medicaid managed care organization, irrespective of the form of business structure or arrangement by which it exists), whether for-profit or not-for-profit, which receives or makes payments, under a State plan approved under title XIX or under any waiver of such plan, totaling at least $5,000,000 annually.

If an entity furnishes items or services at more than a single location or under more than one contractual or other payment arrangement, the provisions of section 1902(a)(68) apply if the aggregate payments to that entity meet the $5,000,000 annual threshold. This applies whether the entity submits claims for payments using one or more provider identification or tax identification numbers.

A governmental component providing Medicaid health care items or services for which Medicaid payments are made would qualify as an entity (e.g., a State mental health facility or school district providing school-based health services). A government agency which merely administers the Medicaid program, in whole or part (e.g., managing the claims processing system or determining beneficiary eligibility), is not, for these purposes, considered to be an entity.

An entity will have met the $5,000,000 annual threshold as of January 1, 2007, if it received or made payments in that amount in Federal fiscal year 2006. Future determinations regarding an entity's responsibility stemming from the requirements of section 1902(a)(68) will be made by January 1 of each subsequent year, based upon the amount of payments an entity either received or made under the State Plan during the preceding Federal fiscal year.

An "employee" includes any officer or employee of the entity.

A "contractor" or "agent" includes any contractor, subcontractor, agent, or other person which or who, on behalf of the entity, furnishes, or otherwise authorizes the furnishing of Medicaid health care items or services, performs billing or coding functions, or is involved in monitoring of health care provided by the entity.

It is the responsibility of each entity to establish and disseminate written policies which must also be adopted by its contractors or agents. Written policies may be on paper or in electronic form, but must be readily available to all employees, contractors, or agents. Although section 1902(a)(68)(C) refers to "any employee handbook," there is no requirement that an entity create an employee handbook if none already exists.

An entity shall establish written policies for all employees (including management), and of any contractor or agent of the entity, that include detailed information about the False Claims Act and the other provisions named in section 1902(a)(68)(A). The entity shall include in those written policies detailed information about the entity's policies and procedures for detecting and preventing waste, fraud, and abuse. The entity shall also include in any employee handbook a specific discussion of the laws described in the written policies, the rights of employees to be protected as whistleblowers and a specific discussion of the entity's policies and procedures for detecting and preventing fraud, waste, and abuse. The Centers for Medicare & Medicaid Services (CMS) is not providing model language, though States may elect to do so.

The provisions of section 1902(a)(68) of the Act must be implemented no later than January 1, 2007, except as provided in the section 6034(e) delayed effective date of the Deficit Reduction Act of 2005. To the extent a State determines that it requires legislation to implement this section and wishes to avail itself of the section 6034(e) delayed effective date, it must request through CMS that the Secretary concur with the determination that legislation is required.

The requirements of this law should be incorporated into each State's provider enrollment agreements. Each State must also determine the manner by which it will ensure an entity's compliance with section 1902(a)(68), which information each State must include in its State Plan along with a description of the methodology of compliance oversight and the frequency with which the State will re-assess compliance on an ongoing basis. Each State shall so amend its State Plan not later than March 31, 2007, or by the end of the quarter in which the effective date of delayed implementation occurs, as described in section 6034(e). CMS may, at its discretion, independently determine compliance through audits of entities or other means. CMS may also review a State's procedures through its routine oversight of States.

If you have any questions on this guidance, please direct them in writing to: Mr. Robb Miller, Centers for Medicare & Medicaid Services, Center for Medicaid and State Operations, Medicaid Integrity Group, 7500 Security Boulevard, Mailstop B2-15-24, Baltimore, MD 21244 or Ms. Claudia Simonson, Centers for Medicare & Medicaid Services, Center for Medicaid and State Operations, Medicaid Integrity Group, Division of Field Operations, 233 North Michigan Avenue, Suite 600, Chicago, IL 60601 or robb.miller@cms.hhs.gov or claudia.simonson@cms.hhs.gov.

Sincerely,

4.42 Employee Education About False Claims Recoveries.

(a) The Medicaid agency meets the requirements regarding establishment of policies and procedures for the education of employees of entities covered by section 1902(a)(68) of the Social Security Act (the Act) regarding false claims recoveries and methodologies for oversight of entities' compliance with these requirements.

(1) Definitions.

(A) An "entity" includes a governmental agency, organization, unit, corporation, partnership, or other business arrangement (including any Medicaid managed care organization, irrespective of the form of business structure or arrangement by which it exists), whether for-profit or not-for-profit, which receives or makes payments, under a State Plan approved under title XIX or under any waiver of such plan, totaling at least $5,000,000 annually.
