Subject: RE: Flood Costs

Andy,

If the Lt. Governor needs any additional information or would like a briefing from our policy office regarding flood costs please let us know and we would be happy to set something up.

You can find the governor's letter to the federal delegation where she breaks down the state and federal cost, here: <http://goo.gl/IVwyuv>

You can find the letter that the governor sent USDA Secretary Vicksack requesting expedited aid for SC farmers can be found , here: <http://goo.gl/nyDpdo>

Below are the numbers we sent reporters following the governor's flood cost press conference.

Total estimated cost to date: \$870 million
The estimated total direct cost to state government is \$114 million
The estimated total direct cost to the federal government is \$493 million

ON BACKGROUND: As the governor has said all along, we will not have a final number to share for some time (final costs will account for non-profit activity, private loans, claims that are still open, and out of pocket costs). This is the best estimate as of today. The difference between the two numbers (state/fed) is that the total number includes SBA loans and private/flood insurance.

Subject: Flood Costs

Hi! Rob said you might have an enumeration/breakdown of flood costs (state, federal, different areas of the private sector etc.) that I can share with Henry - just let me know when you're available and I'll walk over to grab it, or drop it off with one of us over here whenever.

Thanks!

Andy Fiffick
Chief Counsel
Office of the Lt. Governor
