Subject: Reactions to Perry

Chaney,

I apologize for not being able to get an official inquiry out to you sooner. Is there any kind of reaction from Gov. Haley after the nomination of Gov. Perry to Secretary of Energy? How does she hope he handles the position to best help South Carolinians, especially regarding nuclear materials and plutonium at Savannah River Site? Will the \$1 million daily fine counter startup again on Jan. 1, 2017 and does the potential Gov. Perry leadership of DOE affect that battle going forward?

I'd like to get a full story out this evening. We already put a short piece together with Sen. Graham and Rep. Wilson statements, but the nuclear and energy battles in SC need the Governor's voice. I'd like to get something as soon as possible, which I realize is very difficult. Thank you!!!
