

Oct 1 2015

Dear Governor Haley,

I hope this letter finds you well, although I am writing about a tragic affair.

As you know, a young man named Jahary Hammond was shot in the back and killed by a police officer in Denver. Authorities have exonerating and unimpeachably good calls by the Hammond family and others to release damning footage and other evidence. I am writing to urge you to intervene and assign a special prosecutor to the case,

Even superficial knowledge about his death is enough to raise question and concerns. The more one reads the more one is appalled. The mayor has offered no apologies, the evidence is withheld (why?). The offending officer decimated Hammond's body, and he is said to have predicted he would shoot someone that night.

This crime is screaming for you to intervene & effect actual justice. Please answer that call.

Yours faithfully,

STACY
K. STACY
